

Nature's
outside and
she wants to play
with you!

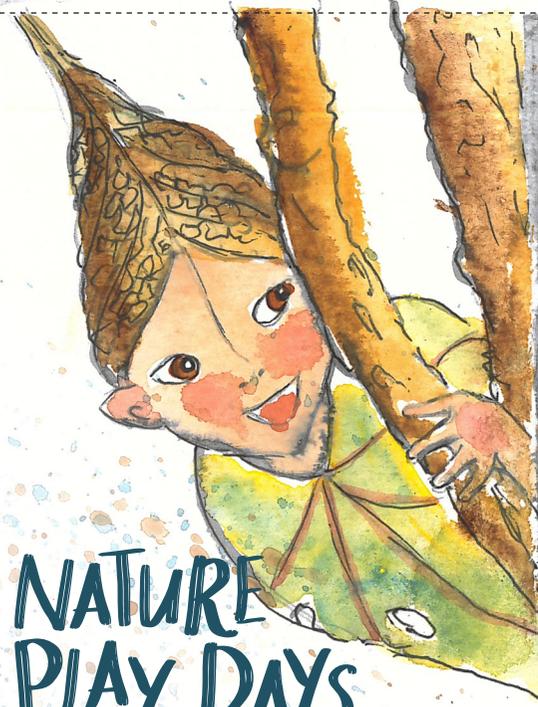

So when you
don't know
what on earth
to do,
remember...

This bright little bug.
That whoosh in the wind.
This sparkle of dew.
That flap of a wing.

On play days with Nature,
wild wonders abound,
from the beach to the bush,
In the sky,
on the ground.

NATURE PLAY DAYS

Dannika Patterson & Megan Forward

It's always
a magical kind of day,
when Nature decides to
come out and play.

Listen and look and
you might find some signs,
that Nature has fun
and games on her mind...
